

Latex free pessary

Revision date: 15.04.2023

MATERIALS:

Biocompatible 100% Medical Grade platinum cured silicone, transparent.
Shore hardness index: 60.

TECHNICAL CHARACTERISTICS:

Maximum comfort due to the softness of the material and decreased weight (from 15.79 to 36.87 gr. based on the size);

- Maximum tolerability due to the medical grade silicone used;
- Maximum safety: the device is STERILE and for single use; Latex and Phthalate free;
- Maximum manoeuvrability by medical personnel responsible for insertion of the device: ready for use, packaged in single blister with 'peel' opening.

INSTRUCTIONS FOR USE:

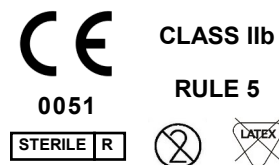

- The device must be prescribed and inserted exclusively by specialised and certified medical personnel, ensuring sterility during application.
- The Device should be applied inside the osteo-vaginal inlet, bending the pessary ring elliptically to facilitate its entry and encircling the cervix. The pessary has a long-term usability, over 30 days, according to the criteria set out in Annex VIII of Regulation (EU) 745/2017.

STORAGE:

- Store the device in a cool, dry place, away from direct light and from heat sources.
- Attention: the device is STERILE. Verify the condition of the packaging before use: in the event of damage do not use.

DISPOSAL:

After use, dispose of the device according to the laws on hospital devices.
