

Nasal Splint Vented

Following a rhinoseptoplasty surgery, patients can't breathe through their nose. Nasal Splint Vented allows a patient to breathe normally while providing effective support to the septum. It is made of 100% silicone to guarantee maximal biocompatibility and non-traumaticity.

- Made of "medical grade" silicone, Shore 60.
- Anatomical design, ideal for septoplasty and rhinoplasty procedures.
- Sterilised by gamma rays.
- Latex free.
- Packaged in double envelope.

REF MED 7370

2 pieces per envelope, 5 envelopes per box.
